6	Clause 2.6 Page 14 Scope of work of DAP	The Consultant shall be responsible for preparing the DAP, by putting together a team as appropriate having expertise on water supply, community mobilization and socio-economic aspects of O&M. The format for DAP shall be provided by the Authority.	The TOR mentions about the team to be put up by the ISA in two places, differently. In the section dealing with "Scope of Work of DAP", there is reference to a 'Consultant' and the team composition of the consultant for the planning exercise. Later, the section on "Team Composition" gives details of personnel needed for village level actions. This difference may be reconciled and explained in the TOR.	The word "consultant" mentioned may be read as 'selected agency'. "The selected agency shall be responsible for preparing the DAP, by putting together a team as appropriate having expertise on water supply, community mobilization and socio-economic aspects of O&M. The format for DAP shall be provided by the Authority."
